ABOUT

A BIT
ABOUT US...

Nestled in the tile hub of India — MORBI, **SKYTOUCH** is a prominent floor and wall tile manufacturer widely acclaimed for its superior quality tiles and decade-long excellence in the tile Industry. Italian technologies and trends continue to advance, our dedication to our valued customers has become only stronger over time. We strongly believe in fostering long-term relations with our customers therefore, we adhere to our core values of transparency & integrity. We are unrivaled in our commitment to being a reliable source of quality, ingenuity and top-notch customer service in the competitive tile market.

Our well-established Clients network that spans across the globe ensures that every shipment is delivered on time. Also, we always strive to strengthen our Clients network by inviting more dealers to associate with us.

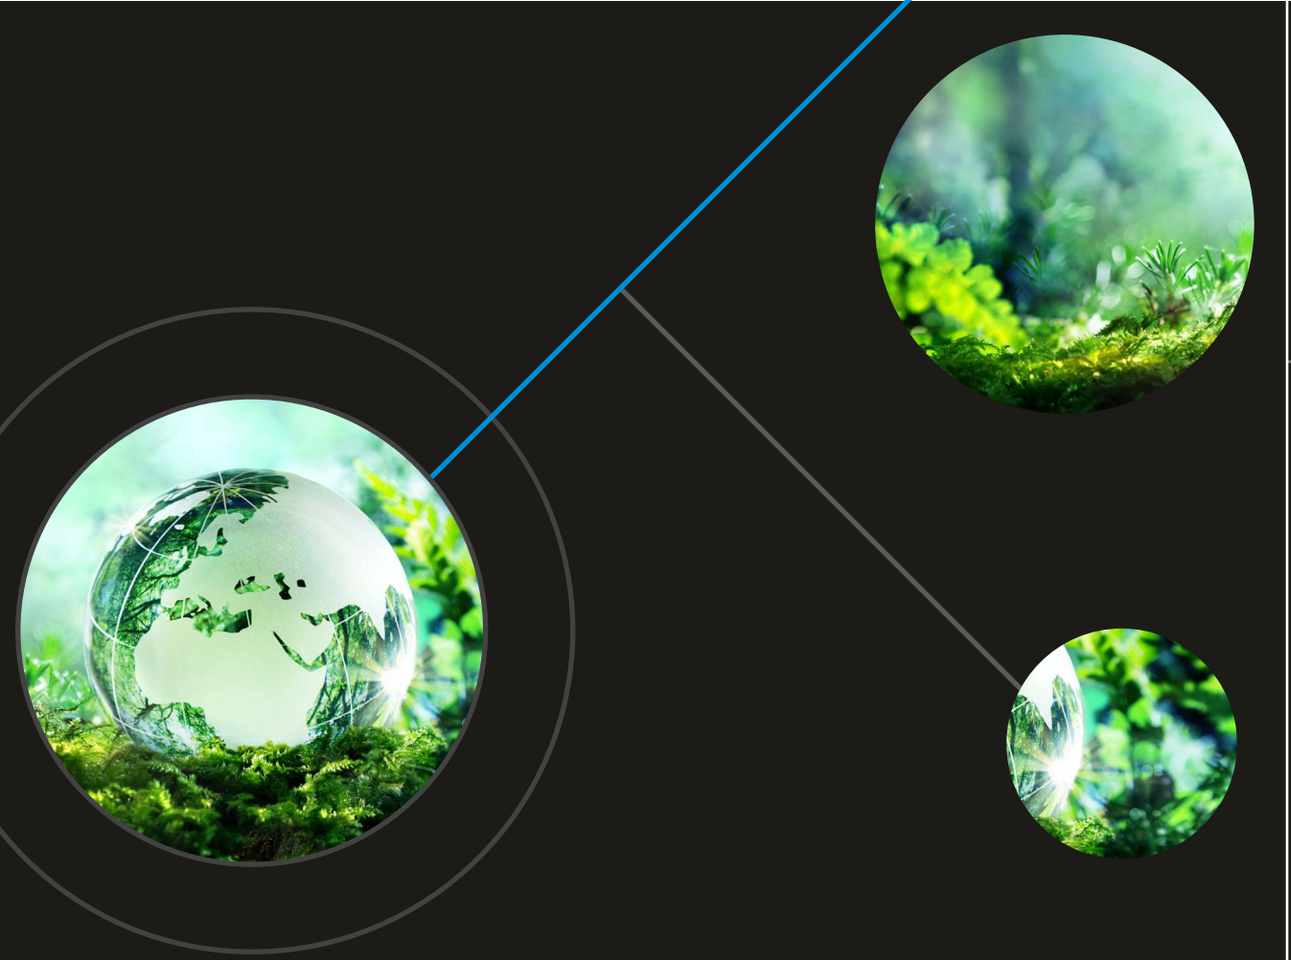
VISION

To continuously enhance our product offerings, our sales channels, our depth of inventory, and all our systems to deliver the best product and services possible.

MISSION

Our mission is to responsibly serve our customers with distinct surfaces to help them envision elevated environments that evoke emotion.

VISION & MISSION



SUSTAINABILITY

Innovation has always been at the core of Skytouch's operations, from cutting-edge products to continually improved corporate procedures. Our Environmental, Social and Governance agenda, which is aimed at building a better future for people and the earth, is also driven by innovation. We make every effort to keep our operations as environmentally friendly as possible, which includes reusing, recycling, and minimizing the amount of solid material and water utilized in the production process.

At Skytouch, our commitment to sustainability goes beyond just our products and business practices. We continually challenge ourselves to do better every day, in making decisions and clearly define that which is vital as we strive to create value for future generations

OUR JOURNEY

2013 — We established a fully-equipped manufacturing unit that spanned over a 24,400 sq meter area

2015 — We started producing 600X600 Nano Soluble Salt Tiles with a capacity of 7,500 sq meters per day We incorporated a kiln of 155 Mtr. & other best machineries

2017 — We introduced GVT(Glazed Vitrified Tiles) / PGVT (Polished Glazed Vitrified Tiles) in 600X600 MM and 600X1200 MM Sizes

2018 — Observing the growing demand for our products, we increased our production capacity by integrating new and better machineries such as 01 Sacmi press and a digital cretaprint (4 colors) Daily output increased to 18000 Sq.Mtr

2021 — **Achieved a major milestone**

Acquired new land (53,500 Sq Mtr) adjacent to the current unit and established new production unit equipped with a new Sacmi kiln(210 Mtr) along with a digital printing machine (06+ 02 colors).

2022 — We added new polishing lines and were ranked amongst the top 30 tiles exporters in INDIA

2026 — **Coming up soon with a new venture**

INNOVATION AT
EVERY STEP

SKYTOUCH CERAMIC

OUR PRODUCTS

A true space is on that tells your story!

Our curated line of porcelain vitrified tiles and ceramic wall tiles are the ultimate synthesis of innovation, art, and quality. Produced using hand-selected raw materials with the finest glazing techniques, our extensive tile range of tiles is aesthetic, versatile, and most importantly durable. Available in a wide range of sizes with broad design diversity, every surface is made in such a way that even the tiniest detail is captured perfectly.

So, whether you are seeking to revamp your commercial space or thinking of creating something that stands out, our beautiful ceramic wall tiles and glazed porcelain vitrified tiles will surely help you reinvent your space!

OUR PRODUCTION

STATE OF THE **ART FACILITY**

Skytouch has formed partnerships with top technology companies to offer cutting-edge, superior surfaces to customers. In our opinion, our advanced technology has not only increased our output and product quality but also improved the company as a whole. Thanks to our cutting-edge digital printing technology, we are now able to capture the tiniest details more vividly which in turn allows us to stay ahead of the trend.
